### THE WASHINGTON WATERS DIFFERENCE

Our tuna swims in the cold, nutrient-rich waters of the Pacific Northwest—one of the world's most pristine marine environments. Local fishermen use selective fishing methods that minimize bycatch and protect ocean habitats. From boat to can, our tuna is processed within hours of being caught, ensuring maximum freshness and flavor.

This commitment to quality and sustainability means you're not just buying tuna—you're supporting responsible fishing practices and local coastal economies.
